

ENGINEERING SURVEYING & PERMIT SERVICES FEE SCHEDULE

Exhibit "A"

1. School Fee processing (per permit subject to school fees) \$24
This fee is paid by the school district, from the fees collected.

2. Special Inspector review/approval (valid for 3 years). \$200

3. Building Permit Fees/Valuations for solar voltaic systems shall be determined as follows:

| | |
|---|--|
| For systems $0 \leq 6$ KW in size: | \$300 permit fee |
| For systems $>6 \leq 11$ KW in size: | \$450 permit fee |
| For systems $>11 \leq 100$ KW in size: | Value at \$4,000/KW |
| For systems $>100 \leq 500$ KW in size: | Value at \$400,000 for the first 100 KW and \$3,000/KW over or fraction thereof. |
| For systems over 500 KW: | Value at \$1,600,000 for the first 500 KW and \$2,000/KW over or fraction thereof. |

For solar system projects larger than 10,000 KW (10 MW), the Building Official may reduce the calculated permit fees, based on the project-specifics and the anticipated time and materials to be provided.

4. When the valuation of a project exceeds one hundred million dollars (\$100,000,000), the Building Official may reduce the calculated permit fee based on the project-specifics and the anticipated time and materials to be provided.

5. Record of Survey Maps – Examination Fee

| | |
|---|------------|
| First Sheet | \$400 |
| Additional Sheets | \$200 each |
| Plus T&M beginning the 3 rd review | |

6. Lot Line Adjustments and Parcel Map Waivers (Legal Description Review) \$400
Plus T&M beginning the 3rd review

7. The following hourly rates shall apply throughout all Department Divisions wherever Time and Materials (T&M) charges are applicable, unless a different rate is specifically identified.

| | |
|------------------------|-------|
| Engineering Series | \$105 |
| Non-Engineering Series | \$76 |
