

Transcript of the New Aging and Adult Services Video

Aging affects us all, but the great news is that we don't have to do it alone. The Department of Aging and Adult Services is here to help you.

Our Senior Nutrition program provides meals to seniors at Senior Centers and in their homes.

We protect seniors and disabled adults against abuse and neglect.

All of our free programs such as Medicare Counseling, Medication Management and In-Home Supportive Services are designed to help seniors remain safe and independent in their own homes.

For more information, call 868-1000 or visit us on the Web today.
