The community workshops will cover topics that include:

- Healthy eating habits
- Nutrition Labels
- How to save money while eating healthy
- How to achieve and maintain a healthy body weight
Workshops provide tools seniors can use to make healthy choices in a real world setting. Workshops teach practical skills you can use when shopping, eating at restaurants, etc.

This presentation overview slideshow is based upon Eat Healthy, Be Active Community Workshops information presented by the Kern County Aging and Adult Services Department to seniors at various Kern County locations. To attend one of the scheduled SNAP-Ed presentations for seniors where topics are discussed in greater detail click here for a list of sites or call 661-868-0981 or 661-868-1049.
What are Eat Healthy, Be Active Community Workshops?

The Eat Healthy, Be Active Community Workshops program is a six-week program focusing on promoting health and reducing obesity and risk for major chronic diseases, where seniors can learn to make healthier choices.

*The workshops emphasize the importance of making small, sustainable changes over time.*
Why can making healthy choices be beneficial?

According to the U.S. Department of Agriculture, and Food and Nutrition Services, seniors can gain health benefits by making two simple behavior changes in their life.

Seniors can benefit by consuming more fruits and vegetables with at least 3 and 1/2 cups of fruits and vegetables (1 and 1/2 cups fruit and 2 cups vegetables).

Seniors can also gain health benefits by participating in at least 30 minutes of a moderate-intensity physical activity each day.

*As always, you should check with your physician before you begin any diet or exercise program.*
How can seniors learn to Eat Healthy, and Be Active?

* Dietary Guidelines for Americans, 2010 and the 2008 Physical Activity Guidelines for Americans provide science-based advice to promote health and reduce obesity and risk for major chronic diseases.

* Together, these two important publications provide guidance on the importance of being physically active and selecting nutritious foods for living a long and healthy life.

* The Eat Healthy, Be Active Community Workshops are based upon these publications and show how healthy eating and physical activity work hand in hand to help us live healthier lives.

Bakersfield Senior Center Participant
Seniors Learn at Eat Healthy, Be Active Community Workshops:

* **Balancing Calories**
  - Enjoy your food, but eat less.
  - Avoid oversized portions.

* **Foods to Increase**
  - Make half your plate fruits and vegetables.
  - Make at least half your grains whole grains.
  - Switch to fat-free or low-fat (1%) milk.

* **Foods to Decrease**
  - Compare sodium in foods like soup, bread, and frozen meals—and choose foods with lower numbers.
  - Drink water instead of sugary drinks.

* **Other ways to gain the benefits of better nutrition and physical activity**
