Frequently asked Questions

- What is the difference between the ricotta cheese and the cottage cheese?
  - The ricotta cheese had less sodium and less sugar. For example, in this demonstration the ricotta cheese used had 150 mg of sodium while the cottage cheese had 470 mg of sodium.
- How much sodium do we need each day?
  - 1500mg
- What are the benefits of eating raspberries and other berries?
  - Raspberries contain strong antioxidants like Vitamin C that are good for fighting against cancer, heart disease and age-related decline. Blue berries have similar benefits.
- What if I can’t find/afford any berries?
  - If you can’t find fresh berries you might want to check in the frozen section (they still have the same benefits if frozen) or if the price is too high or they are out of season you can use other fruits like sliced strawberries or oranges cut into small pieces (both also contain antioxidants and other vitamins you need).
