6. **Human Resources Division Items/Report:**

County Budget - Mr. Brown reported that the preliminary budget, adopted in June by Board of Supervisors (BOS), contained roughly about a 5% cut for the Human Resources Division (HRD) of the net general fund cost. HRD has been able to absorb that cut through changes made with personnel. The next budget hearing will take place on July 18, 2017. The CAO has worked with various departments, and their budget solutions, in reducing their net general fund costs. These efforts should produce a balanced budget for the BOS to approve in August without any issues related to layoffs and/or reduction in personnel. This was accomplished through hard work by the department heads, who have been diligent in preserving resources wherever they can. Also, by allowing the HRD to move forward with internal hiring. HRD has been able to hire several positions over last six months internally, which has alleviated some pressure on the general and fire funds. This allowed them to achieve the ability to move forward with the balanced budget.

LinkedIn – HRD is moving forward with the LinkedIn platform approved by the BOS in June. HRD has an initial contract for 3 years with LinkedIn and has hired an extra-help employee with marketing experience to help brand the county on social media and use that as a recruiting tool. There are several departments excited about this recruiting tool to find employees/applicants to come work for Kern County. Mr. Brown is excited about this opportunity and hopes to provide a more extensive briefing in the future.

Commissioner Prince asked about the status of the Lean Six Sigma project. Mr. Brown explained that project has concluded. Internal staff was trained in the basic Lean Six Sigma principles. The county is adopting a Lean Six Sigma approach and is currently in the process of training over
one hundred county leaders in the basics. Training will conclude in late August or early September.
