13. **Director of Personnel Items/Report of Closed Session Actions:**

   - There were eight Closed Session items during the Regular Meeting held on May 12, 2014. The reportable actions taken on those items are listed in the public minutes of that meeting.

   - We have scheduled one Displaced Employee Workshop for June 18th. A copy of the flyer which will be presented to impacted employees once the Board of Supervisors approves the layoff of county staff has been provided to you. At this time, we anticipate scheduling perhaps another one or two additional workshops in the near future.

   - She and Michael Goulart, the Equal Employment Opportunity Officer, participated in a WebEOC Semiannual Disaster Exercise on May 15th at the County’s Emergency Operations Center on Panorama Blvd in East Bakersfield. The purpose of the exercise was to give Group members an opportunity to practice their electronic communication skills using the WebEOC software. Participants worked in WebEOC with injects borrowed from the Master Scenario Events List from the January 2013 Isabella Dam Failure functional exercise.

   - She, the Personnel Analysts and Michael Goulart attended Job Analysis training provided by Cooperative Personnel Systems (CPS) on May 29th in our office here. We are scheduled to receive 3 additional days of training on Exam Development and Administration, and Classification and Compensation, this month. Job Analysis a mechanism for identifying the essential tasks or functions associated with a classification as well as to delineate the knowledge, skills, abilities and other characteristics required to perform that job. Once completed, the job analysis study and resulting data serves as the foundation to validate the agency’s testing activities. A job analysis study should be completed at least every five years on each classification or series. In the past, our department has not performed job analysis on a consistent basis. Going forward we will be developing a plan to become current on job analysis. To bring ourselves current will require budgeting of resources to provide
additional training on a one-to-one basis with each analyst for at least one such project to ensure the analysis is completed appropriately. I will be providing additional information to your Commission as we move forward with this project.

- We recently purchased two new copiers for our office. She stated she wished to thank our Civil Service Division Manager Karen Kitchen who researched what we had and what we were currently spending and found that we could get two new copiers to replace those that were initially put in place in 2008. We are now paying $250 less a month for two brand new copiers which equates to over $3,000 in annual savings.

- We will have two interns over the summer from California State University Bakersfield: Wesley Bishop and Ruby Rivera. Both students are members of the student division of the Society of Human Resources Managers and will be graduating in 2015 so they are entering their senior year. We are partnering with the Human Services Department to provide these students with an internship program in county human resource functions that will expose them to both the Personnel Department and a large county operating department.
